PROFILE

Full-stack lead developer with 5+ years building and shipping production products end to end, and 2+ years leading engineers across multiple products and three countries. I build responsive, accessible interfaces in React, Next.js, Vue, and TypeScript and the APIs behind them in Node.js, Laravel, and Python, and I set UI/UX and system-design standards for my team. I've cut load times by 30% and issue rates by 50%, shipped products to web, iOS, and Android, and built TourFinderApp, a live AI travel guide, solo end to end.

SKILLS

Frontend: React.js, Next.js, Vue.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, React Query, Redux, Context API, Framer Motion

UI/UX & Web Platform: Design systems and component libraries, responsive/mobile-first design, light/dark theming, accessibility, performance optimization, SEO and prerendering, PWAs, cross-platform apps (Capacitor for iOS/Android)

Full-Stack: Node.js, Express, Laravel (PHP), Python (FastAPI), REST and GraphQL APIs, PostgreSQL, Firebase, Supabase, authentication, role-based access, payment integrations (Paystack/Flutterwave)

AI Engineering: Claude & OpenAI API integration, hybrid self-hosted/frontier-model routing for cost-aware scaling, tool use, prompt design, AI-assisted development with critical code review

DevOps & Testing: Vercel, Render, AWS, DigitalOcean, Docker, CI/CD pipelines, Jest, Vitest, Git

Leadership & Tools: Mentoring, code reviews, UI/UX and system-design standards, cross-country team leadership, Agile, Jira, Zendesk, technical documentation

PROFESSIONAL EXPERIENCE

Lead Software Developer, Tizeti Network Limited

Lagos, Nigeria | 02/2025 – Present

- Lead technical delivery across Hotspot, WiFiCall, and Free Fiber Africa, building across the React frontends and Node.js/Laravel backends and setting the UI/UX and system-design standards the team follows.
- Reduced load times by 30% through caching, rendering improvements, and backend query optimization.
- Lead code reviews and architecture discussions, and mentor junior and mid-level developers on frontend architecture, testing, and deployment.
- Design APIs and PostgreSQL-backed services alongside the interfaces that use them, keeping frontend and backend contracts consistent, and manage deployments and CI/CD on AWS, DigitalOcean, Vercel, and Render.
- Write Jest tests alongside feature work, and resolve customer-portal escalations via Jira and Zendesk, helping win back and retain customers.

Lead Frontend Developer, Tizeti Network Limited

Lagos, Nigeria | 12/2023 – 02/2025

- Led a team of six developers digitizing departmental workflows across three countries (React, Vue, PHP, Tailwind CSS).
- Built secure authentication flows and payment gateways spanning frontend and backend.
- Ran code reviews and streamlined debugging workflows, cutting issue rates by 50%.
- Led product demos, technical documentation, and design/architecture discussions.

Frontend Developer, Tizeti Network Limited

Remote | 03/2022 – 12/2023

- Built responsive web applications with React.js, TypeScript, JavaScript, Tailwind CSS, and Bootstrap.
- Designed and implemented end-to-end secure payment flows and user-facing dashboards.
- Debugged and optimized applications, reducing issue rates by 30%.

NYSC Frontend Developer, Tizeti Network Limited

Remote | 03/2021 – 02/2022

- Developed responsive applications using React.js, Redux, TypeScript, and PHP.
- Implemented secure payment gateways and integrated REST APIs.

Intern, Safe Complex Multi-Biz Limited

Ibadan, Nigeria (Remote) | 03/2019 – 09/2020

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript.

SELECTED PROJECTS

FileFlowHQ – Cross-Platform File Conversion App

Eleven file tools (image/PDF/Word conversion, compression, document and QR scanning, PDF read-aloud) that run client-side, shipped to web, iOS, and Android from one React codebase. Serverless functions for PDF-to-Word and transactional email; build-time prerendering for SEO. React, Vite, Tailwind CSS, Capacitor, Vercel. fileflowhq.com

Free Fiber Africa – Customer Portal & Landing Page

Multilingual platform for subscriptions, payments, fiber coverage maps, wallet renewals, and account management. React.js, Tailwind CSS, authentication, API integration. freefiber.africa

TourFinderApp – AI Travel Guide (Solo Product)

Live conversational AI travel guide, designed, built, and deployed solo. React chat UI with place cards, saved sessions, and theming, on a backend whose hybrid routing sends everyday questions to a self-hosted model and calls Claude only for safety-critical or time-sensitive ones, keeping cost per conversation low. React, Vite, Tailwind CSS, Python (FastAPI), Claude API tool use, OpenStreetMap, Vercel/Render. tourfinderapp-eight.vercel.app

Fantasy Showdown – Real-Money Fantasy Football Platform

Full-stack platform on official FPL data with wallet funding, BVN-verified withdrawals, subscription pots, and automated point-based payouts. React.js, Laravel (PHP), REST APIs, Paystack/Flutterwave, CI/CD. fshowdown.com
